Allowable Subject Matter

1. Claims 38-67 are allowed.
2. The following is an examiner's statement of reasons for allowance: References such as Lau et al. (US Pat. 5,565,783), Connally et al. (US Pat. 4,790,001), and Abraham (US Pat. 5,559,337), disclose various forms of transformer coupling devices used to sense voltage, current, and/or temperature from a power line and transmit data signals to a remote location. However, neither reference nor any prior art of record disclose in their entirety the claimed non-invasive powerline communications transmitter comprising a means for generating communication signals for transmission on a powerline; and a means for reactively coupling the communication signals to the powerline without tapping the powerline. The tapping of the powerline refers to the actual spiking of the powerline with a transformer for direct contact to the powerline.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Davetta W. Goins whose telephone number is 571-272-2957. The examiner can normally be reached on Mon-Fri with every other Fri. off.
